BUILT BY GOMOK MULTIMEDIA · OCTOBER 2026

Numero Group ERP

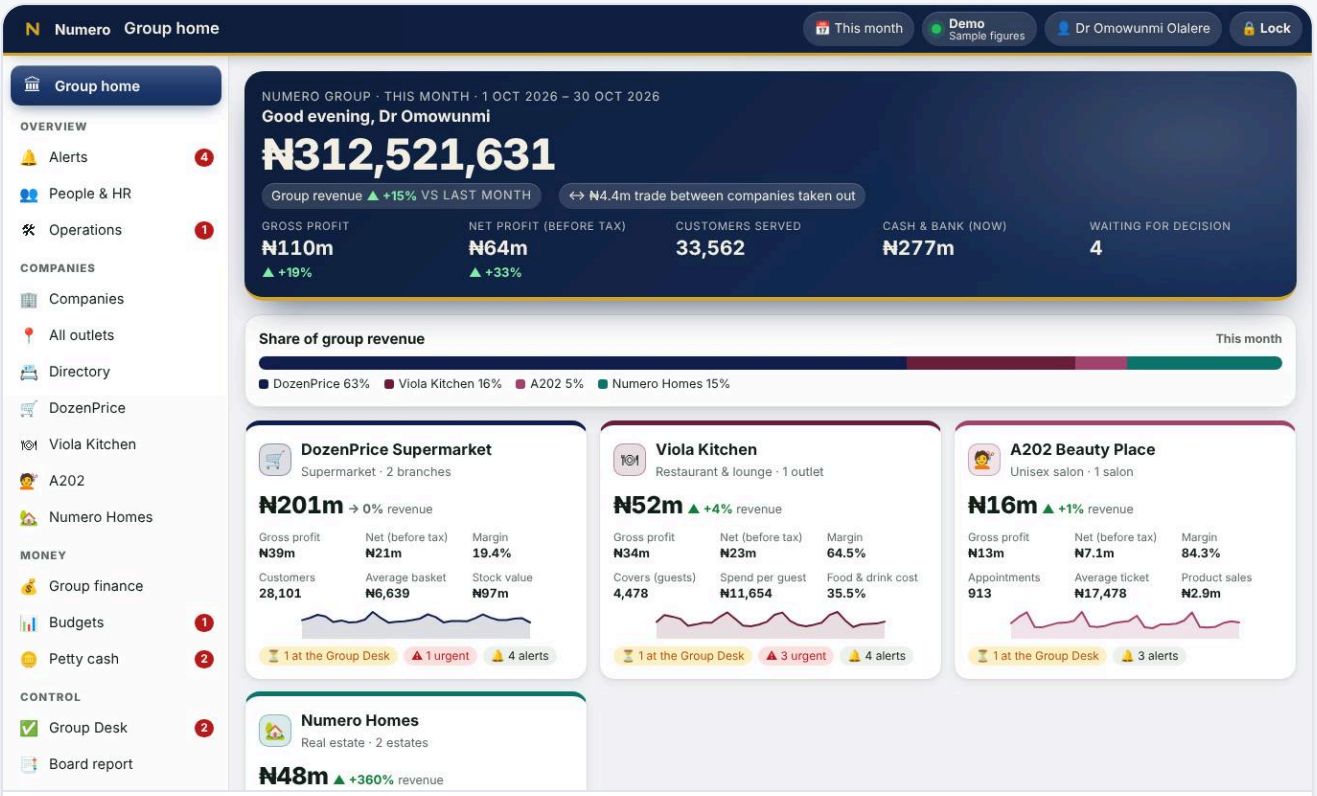

One system for the whole group. Each company runs its own software, website and records. The Chairperson sees every company and outlet from one portal, and big decisions come to her desk.

THE CHAIRPERSON'S VIEW

One portal over every company

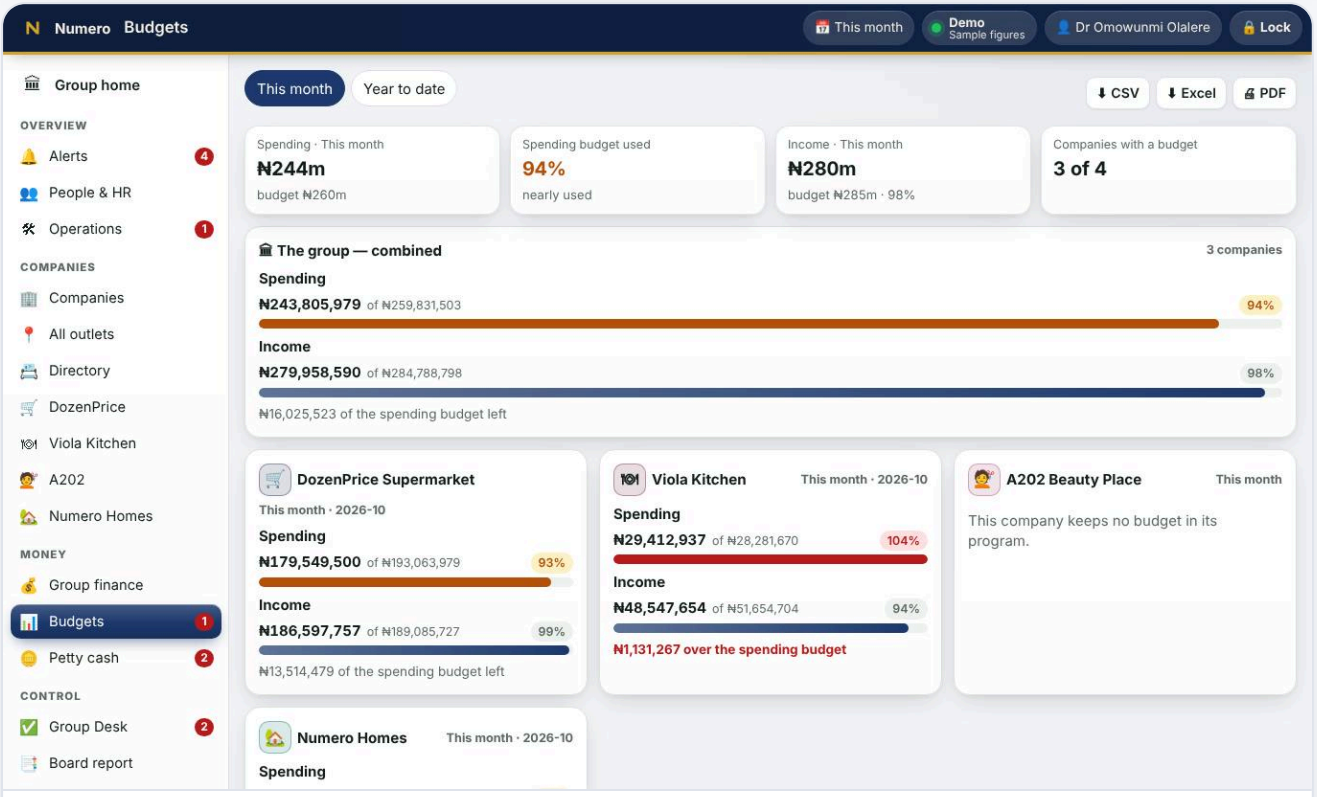

Group revenue and profit, each company's share, every outlet ranked, and alerts that need attention. Requests above the group limit wait here for her decision, signed with her PIN.

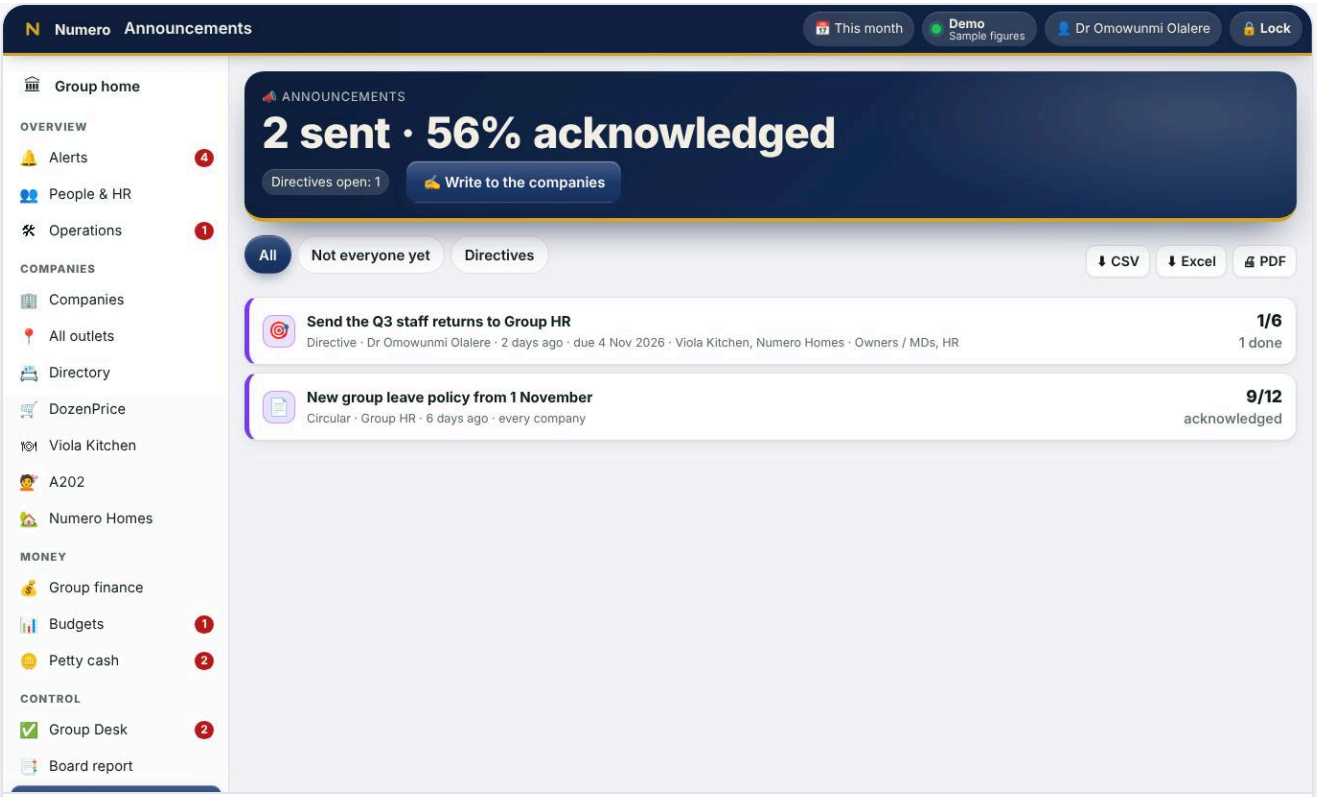

Group home. Revenue and profit for the month, share by company, and one card per company.

Group Desk. Big spending requests from every company, reviewed by Group Finance, decided by the Chair.

Budgets. Spending against budget for every company, amber at 90% and red when over.

Announcements and directives. Written once, reaching every chosen staff member, with who has read and done it.

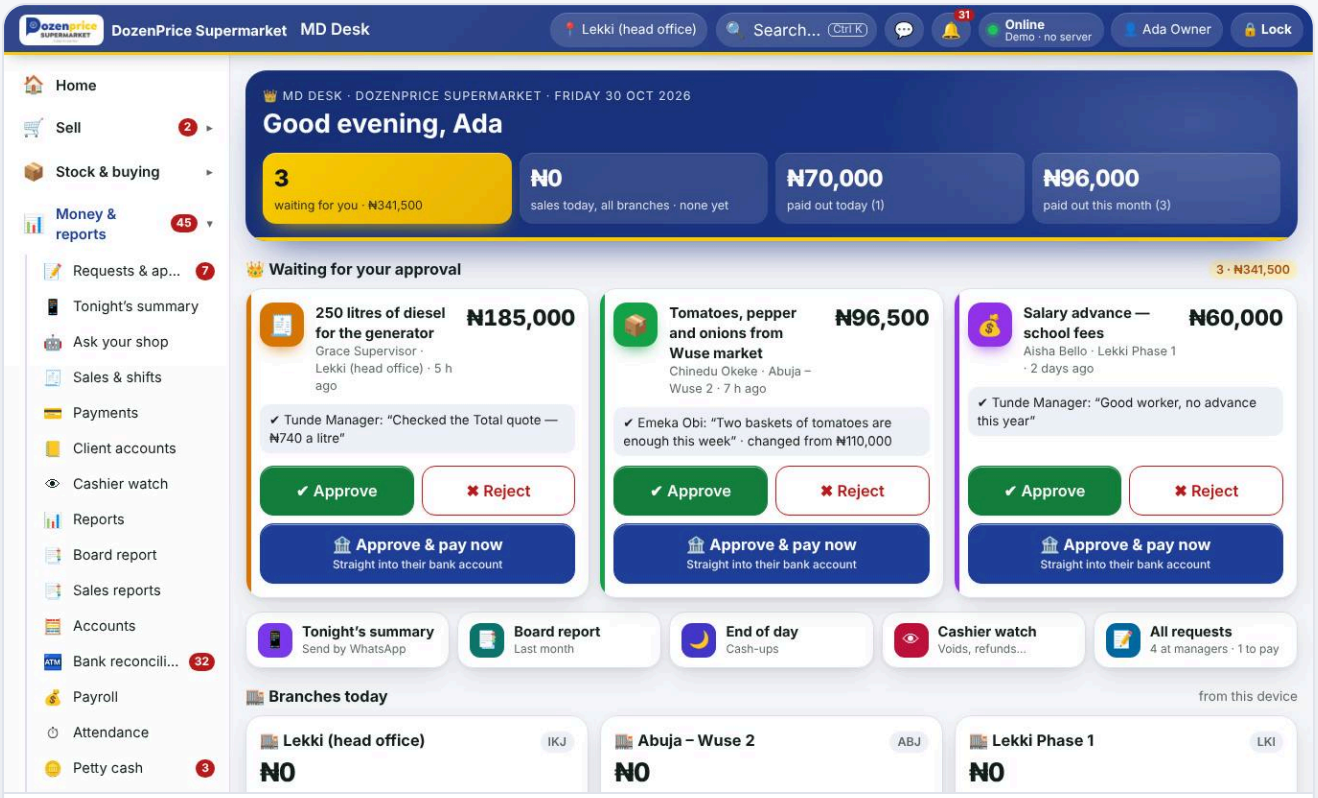

EACH COMPANY

Software made for its own trade

SUPERMARKET · KUSENLA, SHOMOLU

DozenPrice Supermarket

- Tills that work offline, stock, transfers between branches, expiry alerts
- MD Desk: approve and pay straight into the supplier's bank
- Online shop, delivery riders, Glovo and Chowdeck orders
- Customer desk, loyalty and campaigns

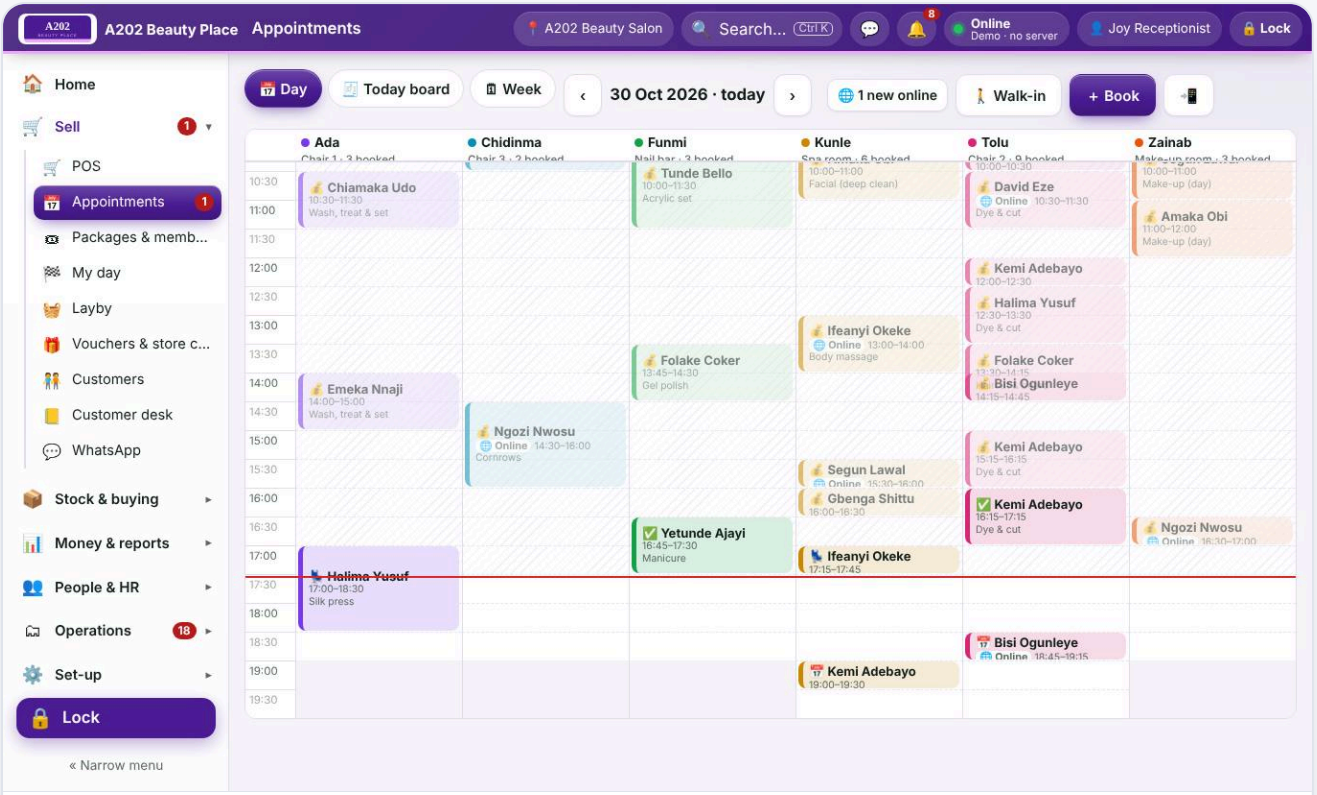

MD Desk. Requests waiting, approve and pay now, every branch today.

SALON · A202 BEAUTY SALON

A202 Beauty Place

- Appointment book with one column per stylist
- Online booking from the website, showing only real free times
- Checkout with commission per stylist, packages and deposits

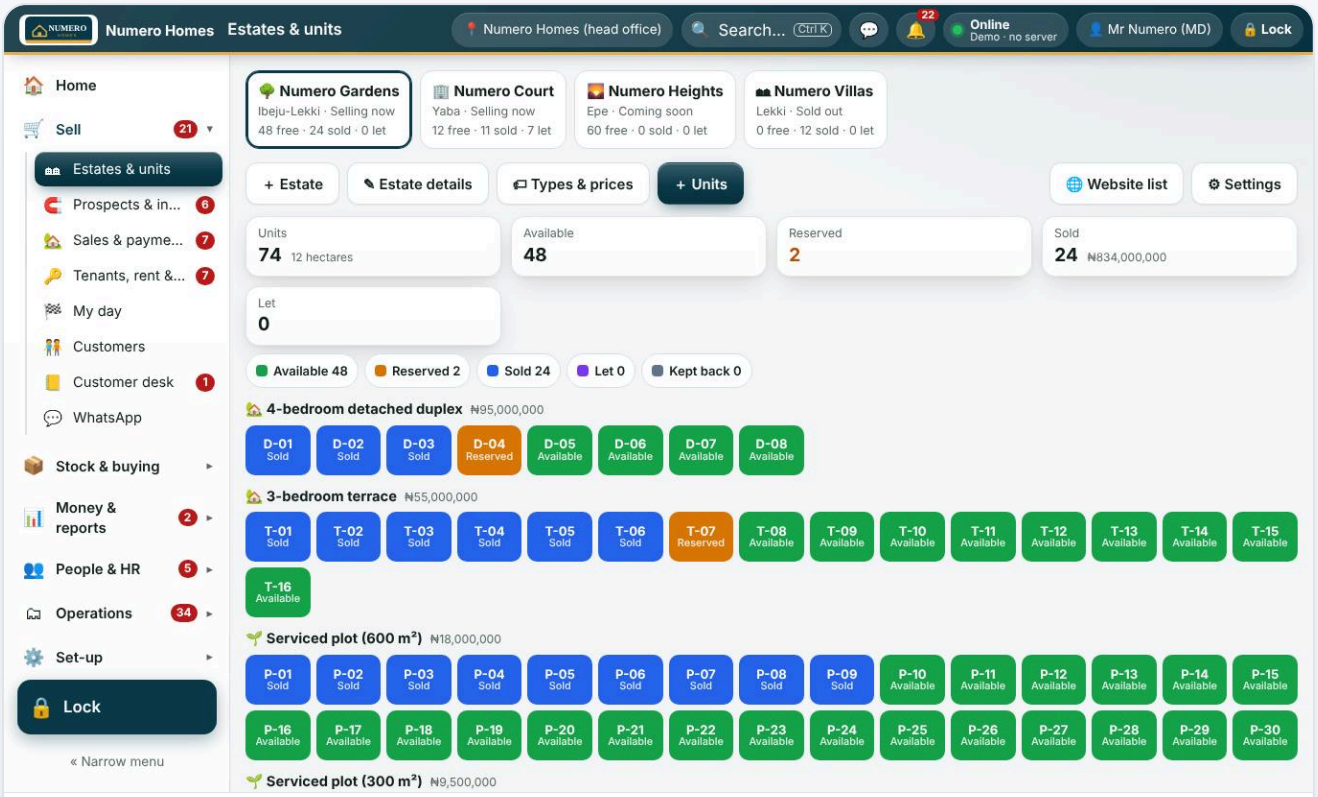

Appointment book. Today by stylist, walk-ins, online bookings marked 🌐.

REAL ESTATE · 4 ESTATES

Numero Homes

- Every unit on a board: available, reserved, sold, let
- Payment plans, receipts, statements, late buyers, allocation letters
- Tenants, rent and service charge; agents and commission
- Inspections booked on the website land in the system

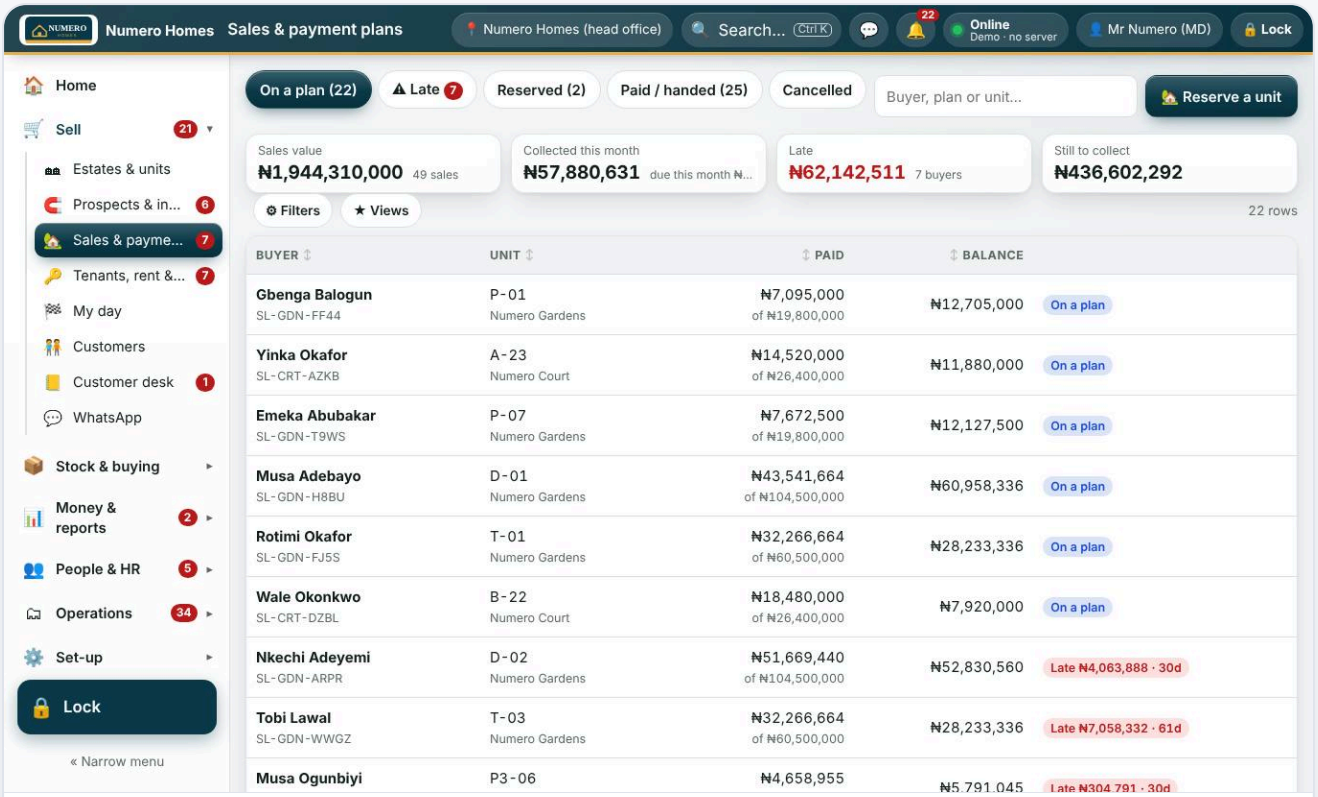

Estates and units. Each plot and home as a coloured tile.

RESTAURANT · VIOLA KUSENLA

Viola Kitchen

- Restaurant software: tables, kitchen and bar tickets, recipes
- Glovo, Chowdeck and Bolt Food orders straight to the kitchen
- Table bookings from the website, WhatsApp inbox
- Same HR, finance and operations as the other companies

Numero Homes · payment plans. What each buyer paid, what is left, who is late. (Viola's screens go online with the move to Cloudflare.)

IN EVERY COMPANY

The back office the group asked for

Finance & accounting
Profit and loss, cash and bank, petty cash, budgets, supplier payments, customer debts, bank reconciliation.

Payments
Bank transfers confirmed by Paystack, card machines, payment links, and paying approved expenses straight to any bank.

HR & payroll
Staff records, recruitment, attendance, leave, payslips with part months, discipline, appraisals, HMO.

Approvals
Your own request types, approval limits, auto-approve, reminders, escalation to the MD, full history.

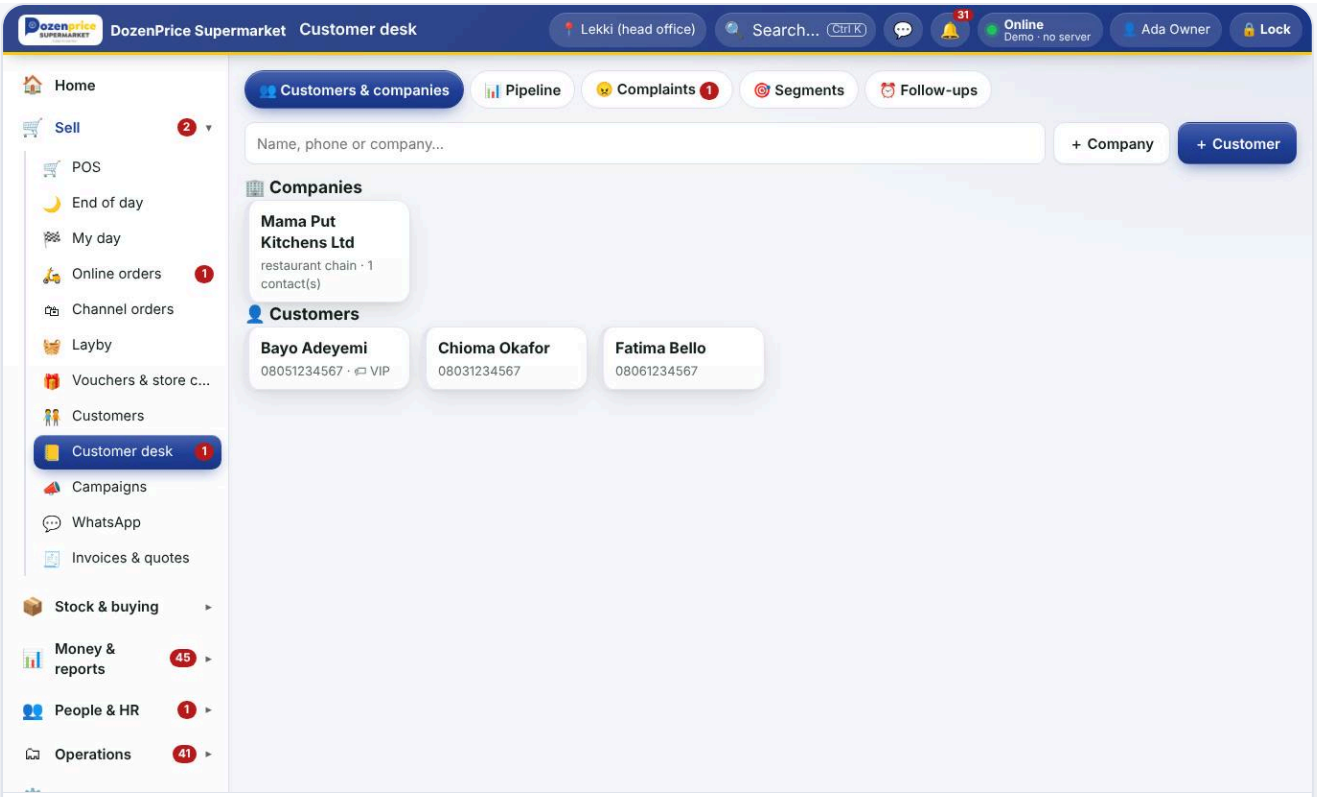

Operations
Tasks with deadlines, directives, meeting action points, checklists, incidents, assets and repairs.

Documents
Letters, memos, circulars and policies on the letterhead, approved with a PIN, "read and understood".

Customers
One timeline per customer, deals board, complaints with deadlines, end of day for every seller.

Messaging
Staff chat, one notification bell, WhatsApp inbox, SMS and email through one group account.

Reports
Branch comparisons, group totals, smart search, sort and filter on every list, Excel and PDF.

Customer desk. Customers and companies, pipeline, complaints, segments and follow-ups.

WHY THIS SYSTEM

Built for how the group works

Works with no internet

Tills, bookings and receipts keep going during an outage and catch up when the line returns.

Made for Nigeria

Naira, PAYE and pension, Paystack, bank-transfer checks, BulkSMSNigeria, WhatsApp.

Four trades, one group

Supermarket, salon, restaurant and real estate each have their own screens, all reporting to one portal.

Each company stays independent

Its own data, staff, website and sender name. If one is down, the others keep running.

TRY IT

Open the live demos

Sample figures only. Everything you do stays in your own browser.

GOING LIVE

Where we are, and what is next

PART	STATUS	NEEDED TO GO LIVE
All five systems and four websites	Built and tested	Online servers (Supabase) and hosting (Cloudflare)
Payments: Paystack	Built	Paystack business account per company, Transfers switched on
SMS, email, WhatsApp	Built	One group account each: BulkSMSNigeria, Resend, Meta WhatsApp
Glovo orders	Built	Access codes from the Glovo account manager
Logos, prices, estates, contacts	Waiting	From each company

1 **Servers and hosting**
Create the group and company servers; move the websites to Cloudflare. Domains stay at Namecheap.

2 **Accounts**
Open the Paystack, BulkSMSNigeria, Resend and WhatsApp accounts in the group's and companies' names.

3 **Brand and data**
Logos, real prices, estates, staff and opening stock.

4 **Pilot**
Start with one company and one branch, then roll out to the rest of the group.

All of this has been tested on demo data. Payments, SMS, email, WhatsApp and Glovo have only been tried against stand-in versions, and each will get a real test message before going live.
